

# It's So Easy. . . . Dukane Projection System (DPS)

*Includes everything but the computer and screen!*

# It's So Easy...

## Dukane Projection System (DPS\*)

*Installs in less than 1 hour!*

**Saves You Time and Resources**

### DPS Kit Contains

- Projector
- VCR/DVD/Combo
- Camera 101 or 202
- Speakers/Array
- Security Lock cable
- Ceiling Mount
- Plenum Cables (with connectors attached)
- Wall Conduit
- Electrical Box (with receptacles)
- Composite / S-Video Adapter

### Follow these easy steps!

#### Step 1

Remove from carton. Everything but the computer and projection screen comes in one box!

#### Step 2

Install in ceiling. Easy to install in a suspended ceiling that has 2 x 2 ft or 2 x 4 ft tile panels. Take out the tile and replace with ceiling mount panel! Secure ceiling panel by same method as suspended ceiling. Requires 110 VAC connection to junction box.

#### Step 3

Install the speaker array into the 2' x 2' suspended ceiling tile mount. The array (molded in white plastic) has 4 speakers angled to deliver sound in all directions. (included in the DPS 2&3 only)

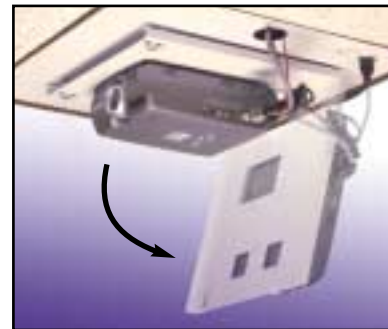

#### Step 4

Connect Cables. Cables are ready for connection to the projector, your PC, the VCR and Camera 101 or 202. Connectors are already attached. Cables are plenum grade.

#### Step 5

Set-up. Connect to the included Camera, VCR/DVD Combo, and Speakers. Standard computer connection for PC or Apple Computers. (Computer is not included)

#### Easy to service!

Just remove the 2 nuts. The mount flips down for filter servicing or lamp replacement. Flip up and tighten nuts to return to original position. No need to disconnect projector cables.

Easy to adjust and secure ceiling mount. Adjust angle with 2 nuts. Security cable from ceiling support to projector

Ceiling panel has 2 receptacles for projector power plus accessories.

The Dukane Projection System (DPS\*) is available in three versions that provide options of image sizes (SVGA or XGA) and audio performance. The system provides all the necessary components to install the data/video projector in less than 1 hour. A description of the DPS 1, 2, and 3 can be found on the Dukane AV website or specification sheet. [www.dukcorp.com/av](http://www.dukcorp.com/av)
