- 5 Year Warranty

Ultra rugged and super high performance, Dukane Sunsplash units offer high value and low cost. Sunsplash overhead projectors use the highest quality glass optics and an easy to use rack and pinion focusing mechanism. This assures you of razor sharp image reproduction from edge to edge, dramatically reducing eye strain. Safety features include stage interlock which locks off power if stage is opened and automatic thermal cutoff to prevent overheating. North-South mounting holes allow for an optional acetate roll attachment and the rotating head allows the presenter to achieve East-West roll. Backed by a 5 year warranty it is easy to see why educators have been choosing Dukane for over 50 years.
