

THE SIGHTS & SOUNDS
OF EDUCATION

Odyssey™ Stereo Binaural Headphone

Model OH-4V

The stereo Odyssey OH-4V is designed for heavy-duty use in K-12 and college classrooms and computer (multimedia) labs. It is Windows and MAC compatible.

The Odyssey is remarkably quiet and comfortable because of its extra deep (noise cancelling) earcup cavities and the flexible comfort sling, which contours to the user's head for better weight distribution and balance. Volume control is on the back of the right earcup.

The replaceable 6' cord withstands 250,000 flexes, and with a cord change, enables the same headphone operate instead in monaural mode (OH-1V) for added flexibility. This also allows minor repairs to be made without purchasing a new headset body. Replaceable, easy-to-clean vinyl ear cushions are hypo-allergenic, no latex.

1. Rugged plastic headstrap with recessed wiring for safety
2. Fully adjustable headband & comfort sling fits all sizes
3. Noise-reducing earcups decrease external ambient noise
4. Replaceable 6' straight cord with 3.5mm mini plug
5. Volume control conveniently located on ear cup
6. Replaceable hypo-allergenic (no latex) ear cushions
